Subject: Responses of The Coca-Cola Company to Your Letter Dated May 8, 2008

Dear Chairman Dingell and Chairman Stupak:

This letter is in further response to your letter to me dated May 8, 2008, relating to your investigation of the safety of the Nation's food supply. As you know, The Coca-Cola Company responded to your request for information by letters to you dated May 22 and May 29, 2008, from our counsel, Theodore M. Hester, of King & Spalding. We responded through counsel because we understood that to be accepted practice with respect to such a request for information. Please rest assured that I have sought and received assurance that all appropriate steps were taken to gather the information provided. Please also rest assured that the safety and quality of the products that The Coca-Cola Company and its bottling system provide to consumers are of paramount importance to me and to all employees of the Company. We appreciate having had the opportunity to respond to your request.

Sincerely,

cc: Geoffrey J. Kelly
